Prof. Koth's discovery has a far wider scope than Jenney's, and is, perhaps, the grandest feat in the history of our science. What inspires one with admiration is not so much the actual discovery, as the method of bacteriological researche; which must serve as the basis of all future discoveries in that line. The present moment is among the most sublime that humanity has known."

THE KANSAS CITY CRASH.

KANSAS CITY, Nov. 15.—Mr. J. V.

Karnes, attorney in this city for the Kansas City Packing and Chase Refrigerator company, of Boston, received a telegram from his cilents yesterday evening to attach the plant and stock of the Kansas City Packing company, of Kansas City, Kansas, for \$500,000, on account of themselves, and for \$500,000, on account of Samuel Leonard, of Boston.

The Kansas City Packing company is owned principally by the Kansas City and Chase Refrigerator company, which assigned at Boston today, and the attachment for \$500 00 against its property here was made to secure its interest, while the attachment for \$500 in favor of Mr. Leonard was made to secure a note for that amount given by the Boston company.

When news of the attachment became

that amount given by the Boston company.

When news of the attachment became known last night other creditors of the Kansas City concern attached the property as follows: National bank of Kansas City, \$87,500; American National bank, \$55,000; Armourdale bank, \$4,000; St. Louis National bank, of St. Louis, \$12,900; Martin Cuff, \$500; James A. Gregory, Kansas City (stockholder) \$3,440. Other smaller attachments amounted to \$5,000. The total amount of the attachments is \$982,162. The amounts due the banks mentioned above are exclusively on drafts deposited for collection. Some of the banks have been paid in full.

The concern in this city had been on a paying basis for the past year, when the Boston concern bought it from Morris, Butts & Co., of this city. It has made money right along. The cause of the present difficulty is entirely outside of the management. Its credit was good, and it had \$25,000 in cash in the bank at the close of business yesterday. The packing house was closed today, and 300 employes were thrown out of work. It is not known here what disposition is to be made of the property.
